

## ***Our Venetian Theme and the “Anniversary Painting” at Venetian Pointe Dentistry!***

As written in this section of our website (entitled “What Sets Us Apart”), it was stated how “*our Venetian themed-dental office may be unique*”. While this may be especially true outside of Venice, Italy, we have served Central Florida since 2003 affectionately thinking of our office being located in the fictitious Venetian Bay with our dental office being located at a pointe. This was first envisioned in 2003 in honor of Dr. Richard C. Rampi’s relatives who are from Venice, Italy.

There are several oil paintings located around the office promoting this theme. They were commissioned by the very talented artist, Paul Vincenti (see [www.paulvincentiart.com](http://www.paulvincentiart.com)). The most recent one was completed in May 2021 ushering in the arrival of Dr. Richard A. Rampi. This is shown to the right. In this scene, our office building is shown with a beacon of light (combining our nautical/lighthouse theme along with our Venetian one). There are three gondolas shown in this scene – one with Dr. and Mrs. Richard C. Rampi, one with Dr. Palmer and his family, and one with Dr. Richard A. Rampi and his fiancée, Dr. Kiara Garcia (also a dentist). Here, the gondoliers (dentists) are willing and able to “Guide the Way to Better Oral Health”!

One of the many paintings especially endeared by many is our “Anniversary Painting”. This is one of the several oil paintings located throughout our office. Members of “the crew” (our staff) are painted into this painting after 15 years of service. Included in this painting are Trish (34 years), Kimberly (29), Victoria (28), Marie (24), Janie (24), Janice (22), Lona (20), and Michelle (15) – all actively serving at VP Dentistry. We invite you to view this painting the next time you’re at the office. Even

though the subjects are small in the painting, Paul did an incredible job of creating an impression of each of these ladies! The dentists are very grateful for the service of the entire crew since, after all, an exemplary experience is the combined efforts of each and every member of the crew from the person who greets you as you enter, to the operators who provide your treatment, to the person who bids you farewell. Buon viaggio!
